

The City of Providence offers curbside pickup of holiday trees during a two-week period at the end of every holiday season. The trees are collected and brought to [Rhode Island Resource Recovery Corporation](#) where they are turned into compost, a natural fertilizer that enriches soil and helps produce healthy plants and trees.

Please follow these simple guidelines to ensure the pickup of your trees:

- Place trees at the curb on regular trash collection days only
- Remove all ornaments, tinsel, lights and tree from trees
- Do not place trees in any type of bag

For more information, contact the Mayor's Office of Neighborhood Services at 421-2489.
